

FIRST SUPRA-REGIONAL JOB PORTAL FOR THE SOUTH BALTIC REGION IS ONLINE!

A specially designed job portal for the whole South Baltic Region tackles structural challenges of the area. Job seekers can now find in only one portal job offers from eight South Baltic Regions: Guldborgsund (DK), Klaipeda (LT), Kaliningrad (RU), Kalmar (SE), Rostock (DE), Tricity (PL), Vorpommern (DE) and West Pomerania (PL). Visit the portal: <http://www.sb-professionals.eu/>.

“South Baltic Professionals” project started the supra-regional online job portal “South Baltic Professionals Portal”. Beside permanent and temporary job offers, visitors can inform themselves about the respective regions: possible leisure activities or requirements to be met are explained objectively and clearly. Hence, cultural and administrative obstacles can be overcome, so that the motivation to apply for a job in the South Baltic Region will rise. All eight regions are characterized by high growth potential; however there exist a lack of qualified labour force in order to optimise the use. As a consequence, the portal makes a major contribution as it supports supra-regional mobility. The aim is to strengthen the economy of all participating regions and to improve the exchange of knowledge. This in turn is the basis for new ideas and innovation within the South Baltic Region.
