

SUMMARY OF THE INTERNATIONAL CONFERENCE IN GDYNIA

The City of Gdynia hosted the international public conference on mobility issues organized within the EU co-financed project “Labour market dynamics and attractive business environments in the South Baltic Region”. The local and regional labour markets of the South Baltic region face development challenges and have to undertake steps to fight unemployment, outflow of qualified labour force and thus enhance the competitiveness of the economy. Nine partners from Poland, Lithuania and Germany tackled these challenges.

The Conference Mobility in the sectors of health and wellness, maritime tourism and maritime economy in the South Baltic labour markets was mainly directed to employers and analysed the perspectives, development trends and barriers for labour mobility within the three sectors of economy.
